Learning Goal

I'd like to get a better understanding of my career options within [the field or function] so I can decide what direction to take for my next job/role.

About Experience

Can you start by giving me a big picture overview of [this field or function] and explain what options exist for someone at my level?

Specific Questions (3-5 suggested)

1. Can you explain the tradeoffs and differences between my various career options?
2. Can you explain the differences between various organizations? Which ones would you recommend I consider, and why?
3. What should I consider when deciding which direction to go?

Closing Ask

Are there organizations or opportunities that I should look into? Are there people you know that I should connect with and would you be willing to introduce me to them?
